Xerox® WorkCentre™ 7800 Series Multifunction System

Transform the way you work.

A man in a white shirt and tie is looking at a document in a meeting. He is surrounded by other people, some of whom are also looking at the document. The background is a blurred office setting.

The smartest technology investments do more than pay for themselves. Ideally, they integrate and streamline multiple office processes, simplify complex tasks, and free up company resources so you can devote more energy to growing your business.

And in today's competitive environment, choosing the right technology provider means getting more than the latest features. You need a complete solution that delivers efficiencies you never imagined – one that solves problems now, while also providing the framework you need to stay one step ahead of potential workflow obstacles.

You need the solutions powered by Xerox® and our WorkCentre™ 7830/35/45/55.

Promote your strong image and minimise costs.

The print quality you need to succeed. With the Xerox® WorkCentre™ 7800 series multifunction system, you'll achieve high-impact colour documents that impress customers and deliver results – while minimising costs.

Take Colour to a Whole New Level

The Xerox® WorkCentre 7800 series, with advanced Hi-Q LED technology, helps you create professional-looking documents at the touch of a button.

- **High-resolution output, highly impactful documents.** With 1200 x 2400 dpi, photo-quality colour images and rich, crisp text, your output always makes a huge impact.
- **Always accurate image quality.** The WorkCentre 7800 series multifunction system employs advanced print heads with Digital Image Registration Control Technology, which ensures consistently outstanding image registration.

- **Impressive results.** Print vibrant images on a variety of stock as large as 320 x 483 mm and on paper weights up to 300 gsm. Impressive finishing capabilities range from saddle-stitch booklets to folded brochures.
- **Harness the power of Fiery®.** Upgrading your WorkCentre 7800 series with an EFI Fiery® network server gives you easy-to-use colour management tools, enhanced productivity and security features and flexible workflow tools.
- **Keep your costs under control.** User Permissions allow the ability to restrict access to print features by user, group, time of day or by application. For example, all Outlook emails can be set to output automatically in black and white duplex and all PowerPoint presentations print in color.

Colour By Words: Unique Colour Control

With the Colour By Words feature there is no need to go back to square one and manipulate source files. You simply select the desired colour modifications from a drop-down list, and Colour By Words will adjust your printout.

Original photo not right? Use the Colour By Words drop-down list and choose "yellow-green colours a lot more green," and "red colours a lot more vivid." Picture-perfect results.

More time for the work that matters most.

The business world is complex enough – your business processes don't have to be. Xerox gives you the tools and technologies that make it possible to automate common office workflows, to turn challenges into routine tasks and to simplify the ways in which you share business-critical information.

Single Touch Scanning

Use the Single Touch Scan feature to create a dedicated, easy-to-locate scan button directly on the colour touch screen interface. Assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.

Easy at Your Point of Need

The colour touch screen provides easy access to a wealth of workflow-optimising capabilities. Onboard scanning solutions that require no extra software or middleware: Single Touch Scan; on-box Optical Character Recognition with searchable PDF creation; secure PDF; print from and scan to USB device; Scan to Email, Mailbox and Network. Plus, single pass scanning simultaneously scans both sides of two-sided documents, while high-compression technology reduces file sizes.

Extend Your Possibilities

Transform the way your organisation gets vital work done with the power of Xerox® Workflow Solutions, built on the Xerox® EIP® platform and hosted on a cloud or server, accessible right from any WorkCentre™ 7800 series device.

Some examples of Xerox® Workflow Solutions that users can access via the colour touch screen interface are:

- **Xerox® ConnectKey™ for SharePoint®.** Scan files directly into Microsoft® SharePoint® and other Windows® folders. Plus, you can go beyond basic file storage and PDF creation by automatically converting documents to intelligent, structured data with easy file naming and routing tools.
- **Xerox® ConnectKey Share to Cloud.** Provides easy, secure, scalable scanning to popular cloud-based repositories such as Google Docs, Salesforce.com, Office 365 and Dropbox™, using custom-designed workflows that leverage our Xerox® EIP technology.

Unrivalled security for total peace of mind.

Business data is your company's lifeblood. That's why Xerox engineered the WorkCentre™ 7800 series devices with the most complete range of advanced features, technologies, and solutions from security-industry leaders that safeguard your critical information from all potential points of vulnerability.

- **Protect your confidential information.** Safeguard all sensitive data with encrypted PDF files for scanning; complete hard drive encryption, compliant with the 256-bit AES FIPS 140-2 standard; and Image Overwrite with a 3-pass scrub process to ensure total deletion of all data fragments.
- **Prevent unauthorised Access.** Permit only authorised users from accessing the device with Xerox user permissions, network authentication, IP filtering, and smart card, role-based and function-level login.
- **Proactive threat management.** Monitors security clearing houses for new vulnerabilities and provides patches when necessary, ensuring your equipment stays current and your data is kept safe. Plus, you can receive up-to-the-minute updates via RSS feeds and stay informed via xerox.com/security.
- **Stay compliant with regulations.** WorkCentre 7800 series devices comply with the latest security standards across industries, including government, finance and healthcare. These include Common Criteria (pending), HIPAA, Data Protection Act, COBIT and more. These devices can conform to any standard, with controls available to match your needs.
- **Gain complete visibility.** Prevent IP theft and ensure non-repudiation by having total visibility into the device and network. With security policy management and tracking of all activity on the device with Audit Log, you know who accessed what and when.

Powerful Partnerships

The Xerox® ConnectKey™ Controller includes McAfee technology integration, resulting in the industry's first line up of multifunction systems that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only safe, pre-approved system files run on your devices, minimising the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® Managed Print Services toolset and McAfee allows for easy tracking and monitoring.

Plus, automatic Cisco TrustSec ISE integration provides comprehensive visibility of all ConnectKey multifunction systems' endpoints to enforce IT-centric security policies and compliance.

Xerox is here so you can connect anywhere.

Real business is not limited to the workplace. And with Xerox in your office, the freedom of uninhibited mobility empowers the confidence to do what you do best wherever your real business takes you.

Freedom in the Office and Room to Roam

The WorkCentre™ 7800 series gives your office staff the luxury of controlling device functions from any workstation. Plus, mobile professionals can access the communications tools and productivity solutions regardless of location.

- **Xerox® Mobile Print and more.** Xerox has all the options to enable secure, accurate printing from most mobile devices, to any printer or multifunction system, regardless of brand. Plus, Xerox offers IT-friendly optional capabilities such as PIN code access and multiple mobile operating systems. For more information, visit www.xerox.com/mobile.

Remote Monitoring and Management.

The Remote Control Panel feature lets you operate the WorkCentre 7800 series device's user interface from any office workstation as though you were standing at the device.

Remotely train users and configure device settings with the peace of mind that integrated security allows only a single authorised operation at a time to prevent multiple remote procedures.

Solutions

Wi-Fi

1 High-Capacity Feeder holds 2,000 sheets of paper. This brings the maximum capacity up to 5,140 sheets. The WorkCentre 7830/7835 models are available with capacities of 2,180 or 3,140 sheets.

2 Exceptional media flexibility. The WorkCentre 7800 series handles a wider range of media types and weight from more trays than most devices in its class. It supports up to 300 gsm and media sizes up to 320 x 483 mm.

3 Print envelopes easily using our optional envelope tray (replaces Tray 1).

4 Large work surface (recommended for Convenience Stapler) gives you plenty of room to sort documents.

5 Dual-head, single pass scanner on the WorkCentre 7845/7855 saves time by simultaneously scanning both sides of two-sided documents at up to 160 impressions per minute.

6 Office Finisher LX* (not shown) gives you advanced finishing functions at a great value.

7 Integrated Office Finisher (only for WC7830/7835)* (not shown) provides 500-sheet stacking and 50-sheet, single-position stapling.

8 Professional Finisher* adds 50-sheet multiposition stapling, hole punch, V-fold and saddle-stitch booklet making.

* Optional

Environmental Features

The WorkCentre 7800 series delivers cutting-edge reductions in energy consumption.

Conserve Energy with Green Technologies

- **EA Toner.** Our EA Toner with ultra low-melt technology achieves minimum fusing temperature at 20 degrees C lower than conventional toner for even more energy savings and brilliant glossy output even on ordinary paper.
- **Induction heating.** The newly developed, heat-efficient IH fuser does not require preheating, which helps reduce power consumption in standby mode by 44% compared to a resistance heating device. Plus, the device recovers from sleep mode in less than 10 seconds.

- **LED scanner.** The power consumption of the scanner using LED lighting is 1/3 of traditional scanners using fluorescent lamps.

Manage Resource Usage and Print Responsibly

- **Energy Management.** With Cisco EnergyWise, enabled by Xerox Power MIB (Management Information Base), you can control, manage and report your device's power consumption information, and set optimal power states and timeout intervals.
- **Earth-smart printing.** Allows you to choose the most environmentally sensitive options for your print jobs.

WorkCentre 7800 series multifunction systems are powered by the Xerox® ConnectKey™ Controller. These simple-to-implement systems give you real, practical solutions that easily streamline how you communicate, process and share important information, simplify complex paper-driven tasks, and drive down costs while keeping your data secure. For more information, go to www.xerox.com/connectkey.

| Device Specifications | WorkCentre 7830 | WorkCentre 7835 | WorkCentre 7845 | WorkCentre 7855 |
|--|---|---|---|---|
| Speed | Up to 30 ppm colour and black and white | Up to 35 ppm colour and black and white | Up to 45 ppm colour and black and white | Up to 50 ppm colour Up to 55 ppm black and white |
| Duty Cycle ¹ | Up to 90,000 pages / month | Up to 110,000 pages / month | Up to 200,000 pages / month | Up to 300,000 pages / month |
| Hard Drive / Processor / Memory | 160 GB / 1.2 GHz Dual-core / 2 GB system plus 1 GB page memory | | | |
| Connectivity | 10/100/1000Base-T Ethernet, High-Speed USB 2.0 direct print, Optional Wi-Fi (with Xerox® USB Wireless Adaptor) | | | |
| Controller Features | Unified Address Book, Remote Control Panel, Online Support, Configuration Cloning | | | |
| Optional Controller | EFI Server, EFI Productivity Bundle, EFI Ethernet Hub | | | |
